
ENLISTED

MAINTENANCE MANAGEMENT PRODUCTION

Maintain historical records for weapons and support systems

CAREER TASKS

ENSURING CONSTANT MACHINERY UPKEEP

From aircraft and missiles to refueling trucks and jet engines, there's no shortage of machines that require maintenance in the Air Force. Ensuring that all the equipment is regularly maintained is the job of Maintenance Management Production specialists. These professionals work with crew chiefs and mechanics to plan, schedule and organize aerospace vehicle maintenance to make sure all of our equipment and machinery is always ready and working whenever it's needed.
